

TO FIND YOUR RING SIZE

NOTE: Sizes may vary depending on screen resolution. For accurate sizing please print this page at 100% scale.

OPTION 1:

- Select a ring that fits properly.
- Place the ring over the circle that matches its circumference.
- If the ring is between two sizes, consider that a wider band might require the larger size.

OPTION 2:

- Print this page in standard A4 paper and cut the ring sizer below. (please note that the ring sizer is required to be 16cm long).
- Make a loop around your finger, insert the thinner part in the cut (letters facing you).
- The letter closest to the cut is your ring size.
